Fact Sheet

Logistics Business Software

## SB Web Booking

Here is an indispensable tool for building a sustainable business based on superior customer service.

### Operating System Requirements:

- Windows 2000 Server (service pack 4 or later)
- Windows 2000 Advanced Server (service pack 4 or later)
- Windows Server 2003 Standard Edition (service pack 1 or later)
- Windows Server 2003 Enterprise Edition (service pack 1 or later)
- Windows 2000 Professional or Windows XP Professional
- Processors Dual Xeon 2.4 GHz or equivalent single processor.  
Be sure that you can upgrade to Quad processors.
- Disk configuration RAID 1 for operating system and applications (2 disks)
- RAID 1 for database log files (2 disks)
- RAID 5 (4 disk minimum) or RAID 10 (8 disk minimum) for SQL data files
- RAID 1 for Temp DB—optional but not recommended (2disks)
- RAID 0 for full and transaction log SQL backups (2disks)
- To attain 2000 transactions per day you may need to increase the number of disks in the RAID 5 disk volume. Having more available disks will improve SQL Server performance.
- We recommend using separate disks for database backups and transaction log dumps.
- We recommend using an Ultra SCSI-3 or Fiber controller.
- RAM 2 GB or more. If you have more than 2 GB of RAM, enable the 3GB switch, or the PAE switch, or both switches in the Boot.ini file if Windows Advanced Server and SQL Server Enterprise Edition are installed. Be sure that you can expand to 4 GB RAM, if necessary.
- Network card Dual 100-bit, 10/100 MB Ethernet or Fiber PCI NIC
- Be sure that your switch has the capacity to handle network traffic.

- Runs on a dedicated Web Server controlled by the Freight Forwarder / 3PL Operator
- Fully administered by the Freight Forwarder / 3PL – no fees, unlimited access and unlimited users.
- User can view shipments by any reference such as:
  - PO #
  - Shipment #
  - Warehouse Receipt #
  - Bill of Lading #
  - Air Way Bill #
  - Tracking #
  - Consignee Name
  - Shipper
  - Etc.
- Freight Forwarder / 3PL administer permissions – Agents can access their consignee's information if Freight Forwarder provides permissions.
- Only requires Internet Explorer and Adobe Acrobat Reader (free) to see Bills of Lading, Air Way Bills, Loading Guides, Pick Lists and Warehouse Receipts.
