

SELECTIVE SOFTWARE, INC.

Integrated Transportation Software Solution

Commodities Warehousing Features:

- ◆ Commodity Codes ease repetitive entry of similar items
- ◆ Hazardous material identification
- ◆ Placards
- ◆ Import of Hazmat text files, as provided by the DOT
- ◆ User-Defined 'Conditions' track inventory and/or livestock conditions at both pickup and drop-off
- ◆ Expanded Inventory location information, by site allowing for frozen, refrigerated warehousing as well as by bin for conventional inventory, and multiple vessel sub-locations for gases and liquids. Circular bins (silos) and dimensional location information provides warehouse capacity planning.
- ◆ International Terminals
- ◆ Bonded Warehouses
- ◆ Breakpoint Terminals
- ◆ Warehouse Billing by Dates, Square footage or Cubic Volume used
- ◆ Inventory Item Analysis Reports

Trucking Application Base System is a requirement for this module
